The good name of a school rests upon the students.

The building, the equipment and the teachers give to the students opportunity to win for the school its good name.

Zeal, watchfulness, the will to strive and the wish to see things as they are, let these be found in the students of the school, and they will endow it with high repute, will bring profit to this city which has built it and will themselves deserve success.

# Central High School: Historical Perspective

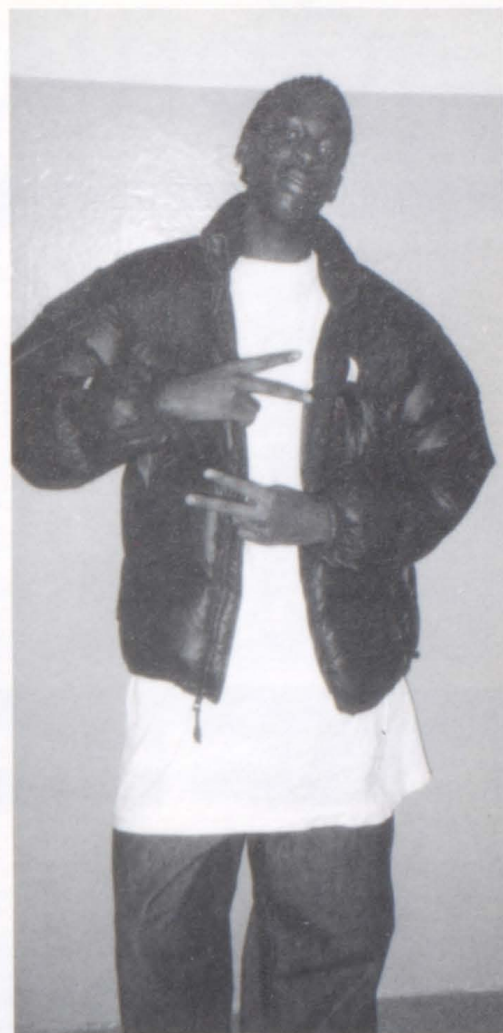

Central High School opened in 1911 as Central Commercial and Manual Training High School. It was Newark's second high school and was named for its foundation intention, to offer alternative to the entirely academic program at Newark High School (now Barringer). "Manual Training" must have been liberally construed, for the nine young men of the first graduating class primarily entered engineering colleges. The school offered Secretarial, Business, General Technical and Industrial studies, and in time changed its name to Central Commercial and Technical High School.

For nineteen years, until 1931, Central was an all year school. Students attended classes during the summer as part of their work, and were able to graduate in three years, instead of the regular four. However, this program was abandoned in 1931, for financial reasons.

Beginning in 1946, Central became an all-night school, when evening classes were moved to its building, and became Central Evening High School. At the same time, veterans' classes were held here, with the result that during the late 40's the daily student population totaled about 3,500. For many years, the machine and electrical shops were used from 3:00pm to 9:00pm as classes by the Newark College of Engineering (now New Jersey Institute of Technology). The Evening School remained at Central until 1978, when it moved to West Side High School. At the same time the continuing Education Program for girls, which allowed pregnant students to keep their high school work current during pregnancy, was moved to Chestnut Street School. Science High School, an education endeavor to prepare students for scientific careers was also housed at Central High School from 1976 - 1977.

The building as it stands today is essentially the same as the one erected in 1911, but some modifications have been made. In the 1930's the cafeteria was moved from the fourth floor to the first and the library from the first to the third floor. In early 1947 the steam - power DC generators in the basement were removed and the school went on outside AC power. In 1947 WBGO, The Board of Education's Radio Station was installed on the fourth floor. Years later, the station dissolved and the space was redeveloped. Beginning about 1968, a major overhaul of the building began. An addition, which contains the gymnasium and swimming pool was built, bringing the school out to the Dr. Martin Luther King Jr. (High Street) property line, and changing the main entrance to Summit Street which had been the back door. The old Girls' Gym on the fourth floor was remodeled into a suite of classroom and a computer room. New laboratories were built, new lighting installed in the halls, a new electrical system and the cafeteria was remodeled. In addition, all classrooms were refitted with new doors and new window sashes. It had been planned to include a final addition to the building going out to New Street, to house a new Home Economics Center and make possible a doubling of the library space, but it has not yet been funded.

GREGORY STEWART

Dear Graduates,

The Class of 2000 is a very resilient class. You have been down and now you are up. Like the phoenix, you have risen from the ashes. You have demonstrated a desire and dedication to be proactive members of our society. You have handled the academic rigors that The Newark Public Schools and the State of New Jersey have required of you. Now, it is time to say goodbye, to the home of the Blue Devils.

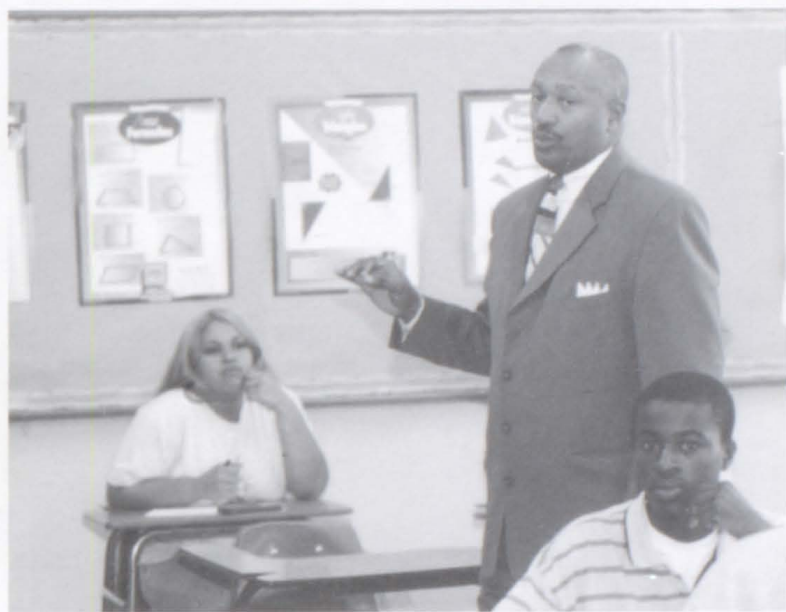

My legacy to The Class of 2000 is that I will insure the academic integrity of the home of the Blue Devils and no centralite will ever disrespect or defame the moral conscientiousness of being a true Blue Devil. I would hope your legacy to your teachers, and me, is that you will make us proud knowing that you graduated from Central High School.

I wish the following for you: be a proactive member of your community; raise and nurture a moral conscientious family; be a success at whatever endeavor you choose; but most important, always remember those who have less than you, for they are traveling the road you have traveled.

# FOOTBALL

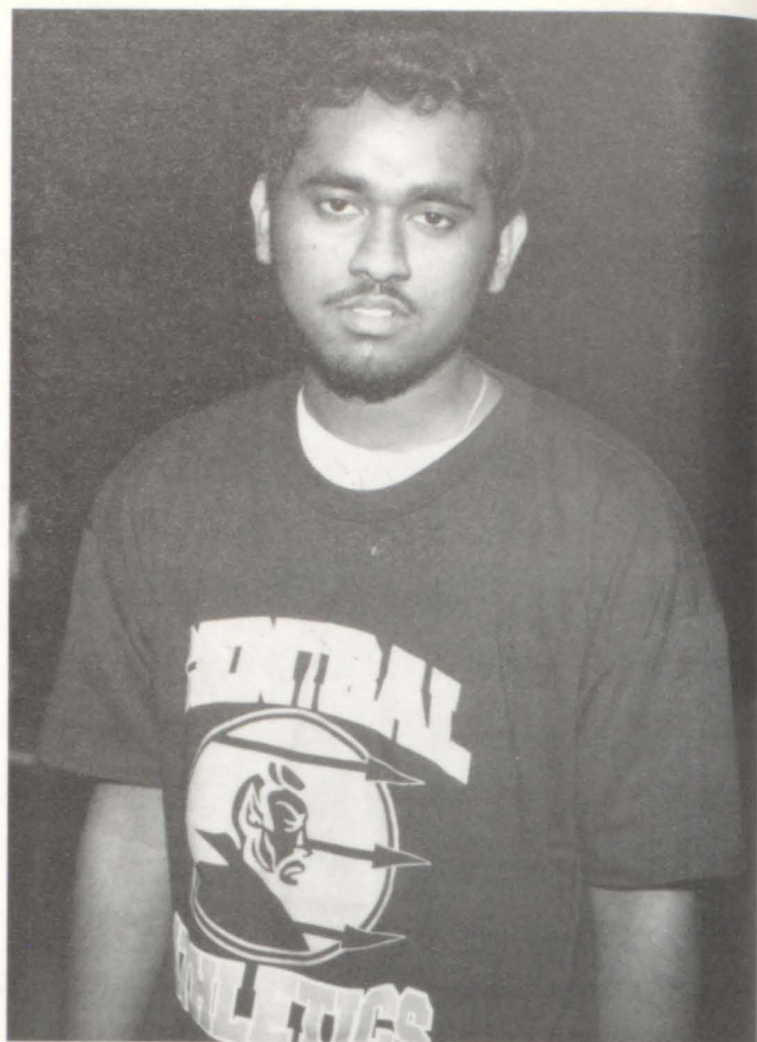

The 1999 football season was filled with problems for the Central H.S. football players. All players were shocked when we heard that our teammates were going to have to play for different schools because of the number of players we had last football season. Many decided to join other teams but all were not successful at joining the teams. Consequently, only 4 out of 20 players continued their senior year playing for different schools. Jaimez Holloway, Michael Brown, and Nicholas La Foucade played for Weequahic. Geoffrey Wyche played for East Side. Sean Odom, Iquan Worthington, Dharad Flournoy and many others decided not to play. Weequahic HS finished the season with a record of 5-5. East Side finished at 4-6.

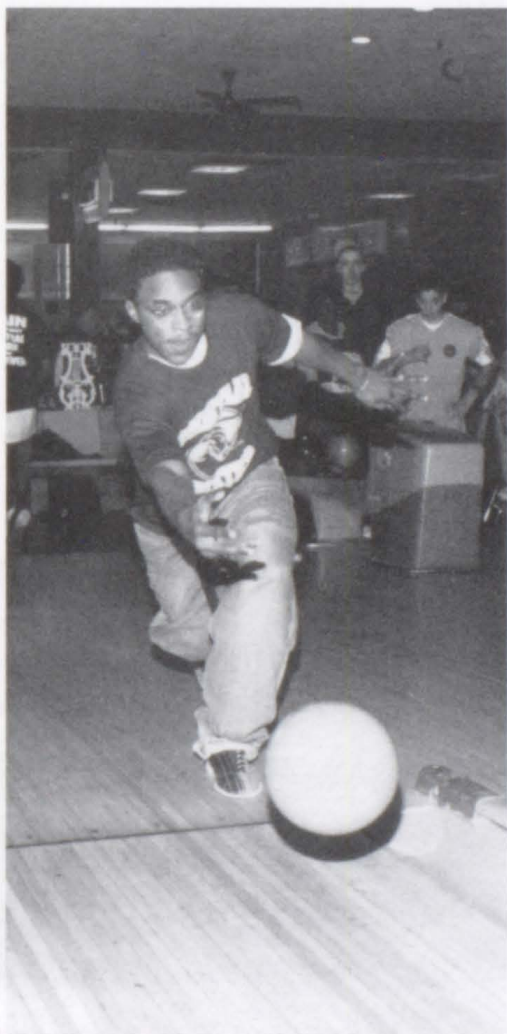

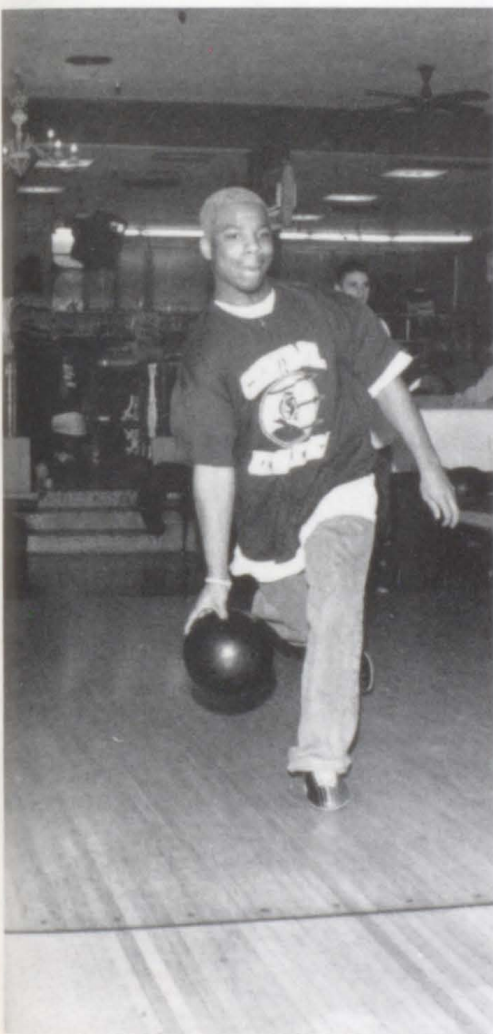

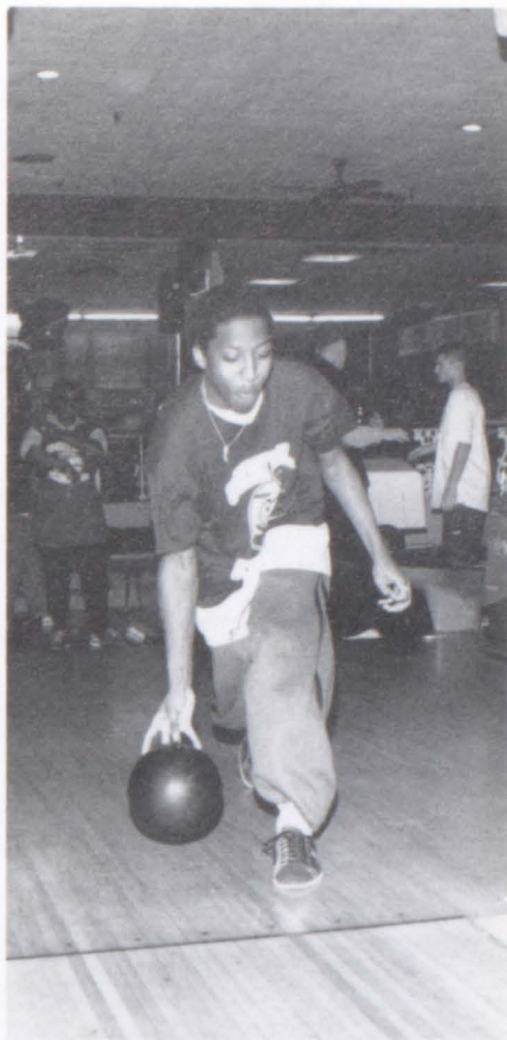

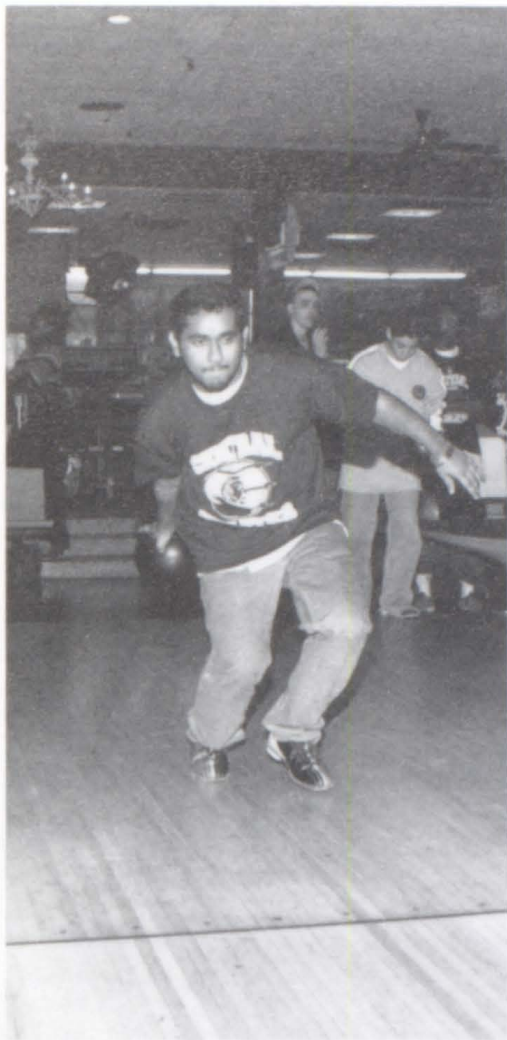

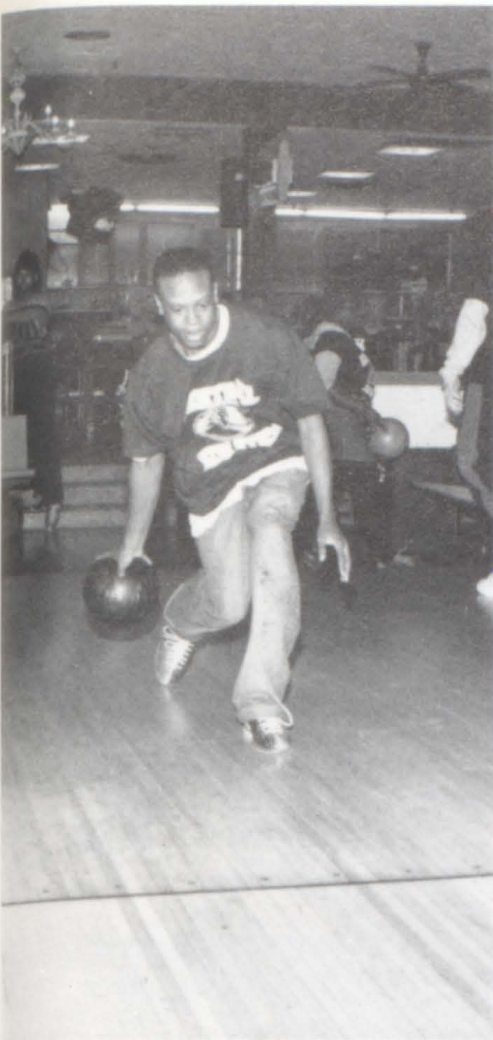

# BOWLING

The overall Central High School bowling season was great. With five returning bowlers from last year we had a great starting team. Two new bowlers excelled to the starting position.

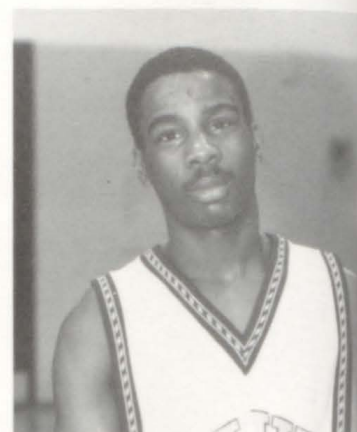

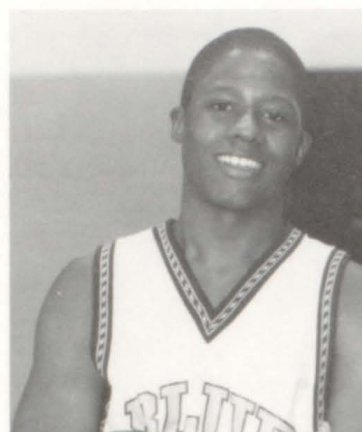

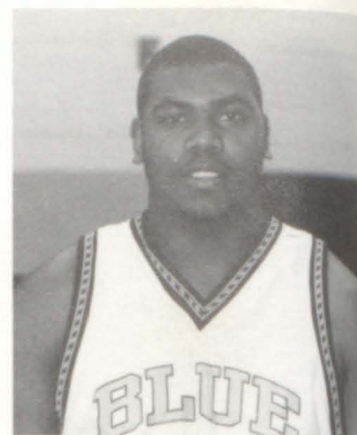

Pg. 76. Top. Senior Alex Antoneypillai. Bottom. The Bowling Team. Left to right. Lynard Marlin, Haneef Lea, Alex Antoneypillai, Marvin Martin, Jameel Ingram, Cassandra Fils, Coach Yates. Pg. 77. Clockwise from top left. Haneef Lea, Alex Antoneypillai, Jameel Ingram, Cassandra Fils, Marvin Martin, Lynard Marlin.

# BASKETBALL

The Blue Devils were led this year by senior Nicholas LaFoucade and juniors Marcus Wooten and Rahman Simmons. All three averaged double figures in scoring for the Blue Devils. Nicholas led the team in rebounding with 9 per game. The other players who contributed to the team were seniors Raynard Lonon and Dana Matthews, and juniors Kasmin Brown, Aaron Harding, Gerardo Martinez, Aquil Davis, Daniel Warner, Ibn Wolfe and Jerome Black.

Because the school only had eleventh and twelfth grade students this year and key players from last year's team were not able to play, the team was limited in the number of players who came out for the team. Most of them had to do double duty on varsity and J.V. Consequently, a lot of the players who were not ready for varsity level competition had to learn the game under fire. Most of them stuck it out and showed a lot of heart and character. The team record did not reflect the hard work and progress which these young men made during this season; but from a coach's perspective, it was appreciated and it will show dividends in their future.

Pg. 78 Left to right. Top row. Jaimez Holloway, Nicholas LaFoucade. Second row. Raynard Lonon, Dana Matthews. Third row. Nicholas LaFoucade makes the move to the hoop. Gerardo Martinez drives past the defender. Fourth row. Jerome Black looks to pass against the defense. Ibn Wolfe has the ball. Pg. 79 Top. The 1999-2000 team. Sitting. Nicholas LaFoucade. Standing, Antoinette Grate, Priscilla Amponsah, Dana Matthews, Jerome Black, Ibn Wolfe, Gerardo Martinez, Raynard Lonon, Coach Blue. Back row not in uniform. Jaimez Holloway. Left to right. Middle row. Aaron Hardy dazzles the defender with his ball handling. Nicholas LaFoucade goes for the loose ball. Marcus Wooten shoots the J. on the Highlanders. Bottom row. Nicholas shoots two. Rahman Simmons goes in for 2 points. Nicholas shoots the jump shot.
